**Defend Yourself Confidently**

Smart armed citizens across the nation are combining their strength as members of the Armed Citizens' Legal Defense Network, Inc. so they won't face the legal system alone if compelled to use deadly force in self defense.

Network members receive financial assistance to assure a vigorous legal representation from soon after an incident through court. You can rely on our one-of-a-kind nationwide network of attorneys and legal experts for knowledgeable guidance.

When you join, you'll also receive education in the legalities of using deadly force in self defense and how to interact with law enforcement after self defense, so your self-defense decisions and actions in the aftermath are the best possible.

If you keep or carry a gun for defense of yourself and your family, the Network is essential to surviving the second attack—the legal aftermath of acting in self defense.

**Do you have the legal protection you need after self defense?**

# ***You defended yourself and your family. Now what?***

## **Post-Incident Support**

After a self-defense incident, the first thing a legally armed citizen needs is a qualified attorney and a thorough, independent investigation of the event.

When you are a Network member, we make sure you have these and other important legal defenses by making available, if needed, an initial deposit against future attorneys fees of up to \$10,000, depending on the nature of the incident.

If you don't have access to your own attorney, a Network official will go right to the location to help you obtain legal representation and give the lawyer the retainer. That's Boots on the Ground protection for Network members.

Armed citizens should get to know an attorney before needing one after an incident. Members of the Armed Citizens' Legal Defense Network, Inc. have access to an exclusive list of Network affiliated attorneys from all across the nation.

Imagine having all of that protection and all those resources on your side before even going to court!

## **Education Prevents Mistakes**

Information and training helps you prepare. When you join the Network, you receive seven in-depth DVD seminars produced by recognized self-defense experts to educate you about—

- The legal parameters governing use of deadly force in self defense
- How to interact with law enforcement after a self-defense incident

- How attorneys craft the legal defense of a member involved a self-defense incident
- Many key concerns, including knowing how to describe pre-assault indicators to explain your actions, witness dynamics, including your own perceptions during the attack, and more.

The knowledge you'll gain from these DVD lectures is worth the price of membership many times over, yet there are many more benefits to joining the Network—

- A monthly online journal focused on self-defense topics
- Exclusive access to the Network's forum for discussions among members only, free of interference from Internet trolls
- Discounts at our online book and DVD store
- A new educational DVD every year when you renew your membership.

## **A Powerful Team**

When you are a Network member, we will connect your attorney with court-recognized experts knowledgeable in all facets of armed self defense. This is vitally important because all too often a legal defense fails for lack of expert witnesses to explain why self defense was necessary. The Network provides expert guidance in crafting your defense and makes sure you have expert witness services in court.

## **The Legal Defense Fund**

When you're a Network member, you get even more protection when we assist with funding for legal costs after a self-defense incident, with a deposit against attorney fees sent to your attorney plus additional grants to defray legal costs if you are prosecuted or sued.

Unlike the many insurance policies and schemes now available to the armed citizen, you will not have to wait until acquitted to receive Network assistance.

We participate in your criminal defense or civil law suit, and that assistance is not limited to just shooting cases. Help is extended to members who justifiably defended self and family using any legal means.

Our Advisory Board of Massad Ayoob, John Farnam, James Fleming, Tom Givens, Marty Hayes, Emanuel Kapelsohn, Vincent Shuck and Dennis Tueller reviews each case, making a careful study so Legal Defense Funds are expended only on justifiable defenses. This gives our decision makers familiarity with the issues involved so you get expert knowledge to guide your legal defense team to a successful resolution.
