

## EXCITING LAST MINUTE NEWS!!

08 October 2011

Re: Broadcast of the 50<sup>th</sup> Anniversary Fireside, October 8, 2011, 2:00 PM MDT

Dear Chilean Mission alumni,

There has been an exciting last minute change that we want to communicate to you. Today's Devotional is being made available via Internet stream feed from the Church's audiovisual dept. The URL is: <mms://stream.lds.org/scb1110spa>. In other words, if you are unable to travel to a chapel today to gather with others to view the broadcast, you now will be able to see it via the Internet at home.

The test feed will start at 1:00 PM MDT with the actual broadcast beginning at 2:00 PM MDT – Please adjust for your time zone. The program will only be in Spanish. We have experimented with the feed and it is very reliable. See the next paragraph for information about the Real Player viewer that we found was necessary to view the Internet feed.

Please check the programs installed on your computer. You may need to download Real Player to your computer in advance of the broadcast. This can be accomplished by going to: <http://www.real.com/realplayer/search>. Click on "Real Player FREE Download" and follow the on-screen instructions.

We learned of these changes just a few hours ago. We are asking those of you who had planned on viewing the Devotional at a chapel not to change your plans in favor of staying at home and watching on the Internet. Otherwise, those of you who would have been unable to see the Devotional broadcast can now do so.

Regards,

Chilean Mission Reunion Committee
